

Phi Delta Chi:

A Tradition of Leaders in Pharmacy

The History of Phi Delta Chi is now available in a 577-page volume!

This book is at least three stories in one:

First, it is the amazing story of how 11 pharmacy students and their dean created an organization that now numbers more than 43,000 pharmacists and students (and keeps growing).

Second, this book portrays college life for fraternity men, and eventually women, for 112 years!

Third, this book depicts images and opinions of pharmacy and society held by pharmacists and the public from the late 19th century to the present day.

The story of Phi Delta Chi and the profession of pharmacy is divided into seven sections:

- Part I: The Founding of America's First Pharmacy Fraternity
- Part II: A Chronology of Growth and Expansion
- Part III: Our Chapters
- Part IV: Distinguished Brothers: Leaders in Pharmacy
- Part V: Reflections on Fraternity, Pharmacy, and People
- Part VI: Facts and Figures
- Part VII: Recognizing Excellence: Award Programs and Winners

... and much, much more!

Reading our Grand Fraternity's History will:

- remind you of why you became a Brother of Phi Delta Chi and bring back all those memories of the fraternal spirit you have shared with other Brothers.
- make you swell with pride at the accomplishments of our Brothers both in the Fraternity and in the profession of pharmacy.
- Give you a more complete understanding of the details of our origin; the struggles we have faced as we have grown and matured over the years, and the place your own Chapter holds in the "big picture."

This History is a book you will pick up from time to time over many years, learning new and interesting things about your Fraternity and your profession every time.

Phi Delta Chi: A Tradition of Leaders in Pharmacy

- makes a great gift for saying "thank you," "good luck," or "you're a leader."
- is one reference book no Phi Dex's bookcase should be without
- supports Phi Delta Chi's leader-training mission! (Proceeds from the sale of this book help us to develop the vision and skills of more and more pharmacy students and pharmacists across the country)
