

**Organizational Affairs: National Dues Adjustment, GPP Addition**  
**2023-01-02**

**Background:**

In the development of 2023-01-01/03/04, it was determined a policy was needed to ensure compliance with the proposed flex adjustment of dues language in the following two proposals. The below will be added to the General Policies & Procedures of the Fraternity to provide enforcement of the proposals if passed.

**Proposal:**

The Grand Council, based on the Chapter VII Number 1a (NADs) and Chapter VI Number 1 (NODs), shall determine the maximum amount of annual dues. The proposal is to set a maximum by the Grand Council but allow the Executive Council to increase slowly (no more than 10% a year) from the current amount up to the maximum set amount as needed financially. There may be years where no adjustment is needed, however this gives the EC the ability to do an economic assessment and adjust the dues accordingly if needed.

Current General Policies and Procedures	Proposed General Policies and Procedures
No current GPP 11.0	<b>NEW GPP 11.0 - Adjustment of National Dues Paragraph 11.01</b> <i>The Executive Council shall conduct a financial assessment annually and adjust NODs and NADs to meet the economic needs of the Fraternity. This adjustment shall never be more than 10% of the maximum amount approved by the Grand Council.</i>

**Organizational Affairs Review Committee Recommendations:**

We recommend...

1. Approving as written.

2. Approval with the following revisions:

---

---

---

---

3. No revisions to the General Policies & Procedures.
